

Explanation of HX new type to old type

Hengxin Science and Technology Limited

Hengxin is experienced in Induction Heating Machine and Induction Heating Power Supply, induction heating equipments can be used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.hengxinkeji.com>

Hengxin has changed the types of all the induction heating machines, sample as bellow:

HX-40AB-MF

40input power or output power;

ABSeparated type, machine is separated into a main machine (control part) and a head machine (transformer or capacitor box). If only A, it means integrated type.

MFFrequency, including UHF (Ultra High Frequency), HF (High Frequency), MF(Medium Frequency);
