

suspended induction heating

Hengxin Science and Technology Limited

Hengxin is experienced in Induction Heating Machine and Induction Heating Power Supply, induction heating equipments can be used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.hengxinkeji.com>

Induction heating will lead a very big magnetic field energy on the induction coil, and this big magnetic field energy can suspend the conducted magnetic material and bring a fast heat.
